INSTANTLY TRANSFORM LITTLE-GIRL BEDROOM TO FABULOUS TWEEN WITH NEW ROOMLOOKZ™

Lockerlookz™ Expands Outside The (Metal) Box And Into The Bedroom

Plano, TX (September 17, 2015) – By the time a tween hits middle school, the academic workload really ramps up, as does the time spent on homework. It's also when most girls move from the kitchen table to their bedroom sanctuary while pouring over those Spanish conjugations or Newton's Laws of Motion. Why not add a dash of fashion to the bedroom as the little girl transforms into a confident teen? Introducing RoomLookz, the tween bedroom "community" by the stylish trendsetters of Lockerlookz.

RoomLookz takes on the same mission of nationally touted LockerLookz by turning drab but necessary spaces (the interior of a school locker) into inviting, trendy surroundings with color, patterns, fashion and fun. Who wouldn't want to pour over homework sheets when they get to pluck pencils out of a gorgeous caddy or gaze at a tabletop lamp with an aqua grosgrain bow that complements the hand-picked aqua dot wallpaper?

Rich details in each carefully created piece are both affordable (from \$3.99 up to \$24.99) and adorable. Pick a Peony Flower Magnet (\$3.99) in pink, aqua or white that adds a little sparkle with its gem centerpiece. Acrylic three-compartment caddy, magnetic dry erase wallboards and tabletop accessories dress up her space while adding storage in beautiful order.

Anyone with a tween girl -- aged 8 to 14 -- in the home knows this is not a frivolous concept. 75% of tweens polled by RoomLookz said their bedroom is their favorite spot in the house. 85% boasted that decorating their room was high on their must-have list. Incredibly, 97% said they would likely purchase locker decorations if transformed for a bedroom! With annual budgets of \$50 to \$100 reserved for room decor, RoomLookz is destined to be the buzz word of 2015 on social media and tween magazines. Look for all RoomLookz packaging to bear the aqua RLZ logo.

"This category focuses on cute mix-and-match pieces," reveals LockerLookz co-founder JoAnn Brewer, "that coordinate with her smart organizational system and pulls her room 'look' together." Chimes in LockerLookz co-founder Christi Sterling (and fellow mom to a tween girl), "here we offer a peel & stick wall and surface covering that allows her to customize her space – apply it to walls, desktop, or any other surface for added flair. Other coordinating items include a magnetic mirror with stand, candy dispenser and a battery-operated LED lamp that features a motion sensor and cute grosgrain bow."

Arriving online and in stores this fall, the RoomLookz 2015 Collection kicks off with

themes -- Pink, Black & White and Aqua. Pretty, practical and a bit whimsical combine to add a splash of sophistication to a tween's special space. As her mood and styles change, so can her bedroom decor. And all without draining her allowance or breaking the family budget!

For retailers and consumers not convinced that tweens need their own bedroom community, consider there are close to 21.5 million children between the ages of 10 and 14 according to the latest U.S. Census. Their spending power is potent -- \$30 billion annual spending of their own money! Much more if you count their influence on parents' and the grandparents' \$150 billion spending budget. Of those, 10.6 million are tween girls -- too old for toys and too young for boys.

Industry and media darling LockerLookz -- now partnered with Darice, Inc., the largest full-line craft company in the U.S. -- weighed the research and identified the underserved market for chic room décor that encourages self-expression while staying affordable. RoomLookz perfectly fills the slot.

ABOUT LOCKERLOOKZ

LockerLookz was born when two moms, Christi Sterling and JoAnn Brewer, went looking for locker decorations and couldn't find anything specifically for that purpose. Knowing how excited their own daughters were about customizing their school lockers, the two moms immediately realized they had to create a ready-made locker design system with coordinated items that were easy to install. To accomplish this, Christi and JoAnn felt they needed to create an entire locker "look" which ultimately led them to their company name... LockerLookz. Visit the company's website www.LockerLookz.com for product information and a virtual dressing room to create a locker look.
